DUAL SPEED ELECTRIC CHAIN HOIST

This economical and robust dual speed electric chain hoist is ideal for hoisting heavy objects in a wide range of applications, providing safety and efficiency in the workplace.

FEATURES

- 2 speed constant torque inverter motor with overload protection
- All aluminium alloy die cast hoist body, IP54
- Gearbox with fully machined helical gears, case hardened, oil bath lubrication
- Inverter control board with five fold protection against undervoltage, overvoltage, overheat, overload and overcurrent
- Lightweight, ergonomically designed handheld pendant made in Italy, IP65
- Durable and wear resistant RUD load chain
- Corrosive resistant, long lasting alloy steel chain sprocket
- Consistent, German made limit switches for flawless functionality
- Weipu aviation plugs and sockets for constant conductivity, and elimination of plug falling off
- Heavy duty chain bucket, protects and reduces wear and tear on the chain.
- Optional top hanger

HANGER SUSPENSION OPTIONAL

DIMENSIONS

Product Code	Working Load Limit WLL	A	B	C	D	E	F	Hmin	J	L	K	X
